

OKTAGON® Dental Implants are inspired by the world's leading designs – clinically proven, trusted by dentists, and now available at a more cost-effective price.

- ✓ Backed by clinical success V Precision-engineered in Germany
- ✓ Exceptional value without compromise

Smart dentists choose OKTAGON® – because excellence doesn't have to come at a premium.

TREAT MORE PATIENTS

- Many OKTAGON customers are able to reduce costs and ease the cost burden for their patients
- Together with our customers we can make implant treatment more accessible and allow our customers to widen their patient demographic
- Treat more patients and not just the few

SEAMLESS TRANSITION

- This enables clinicians and dental laboratories to seamlessly incorporate OKTAGON products into treatment plans with a great deal of confidence and little to no learning curve

QUALITY PRODUCTS

- Secure connecting interface between implants and prosthetics
- Precision manufacturing from Grade-4 titanium with a Sandblasted Large-grit Acid-etched surface
- Made in Germany

MANUFACTURING PEDIGREE

- Implants with a lifetime guarantee
- >125 years pedigree of medical devices
- 30 years of dental implant production
- Manufacturing tolerances which are almost zero
- Focus on high product quality

Q1 NATIONAL OFFERS

1st January - 31st March 2026

*Offers cannot be used in conjunction with any other offer.
Subject to availability.

ROOT TIP RESECTION & OSTEOTOMY KIT (RTRO KIT) RTR00

This RTR00 Kit was developed with PD Dr. Dr. Florian Bauer. It contains a sophisticated selection of diamond instruments and carbide burs for performing root tip resection.

NEW!

Product	RRP (£)
MEIRTR0	£167.80

£134.24!

SOFT TISSUE PUNCH KIT BMSTP

The Soft Tissue Punch Kit contains mucosal punches in 5 different diameters, which are used to obtain biopsies or soft tissue grafts. Thanks to the precise manufacturing and high sharpness, these punches have excellent cutting properties which reduces the risk of tissue trauma.

NEW!

Product	RRP (£)
MEIBMSTP	£384

£307.20!

UMBRELLA SCREW WITH DRILLINGS USL600

The Umbrella Screw is intended for use in intraoral bone augmentation and offers an alternative to the shell technique and the use of titanium-reinforced PTFE membranes.

NEW!

Product	RRP (£)
MEIUSL600	£195

£156!

OCCCLUSAL REDUCTION KIT 2565

The Occlusal Reduction Kit allows precise occlusal reductions to be carried out. Thanks to the unique, angled depth stops, a precisely defined removal is possible. The vertical orientation provides for good access to fissures.

Product	RRP (£)
M2562	£147

£117.60!

DOCTOR PREPARATION KIT SC02

The Doctor Preparation Kit contains a wide selection of award-winning diamonds including all necessary moulds for the preparation of inlays, onlays and crowns. The set includes the Occlusal Reduction Burs with a depth of 1.5 - 2 mm for a predictable occlusal reduction.

Product	RRP (£)
MEISC02	£252

£201.60!

IMPLANT PROVISIONAL AND ZR LAB SHAPE & POLISHING KIT 2640

This kit was specifically designed for laboratory use and the production of highly aesthetic provisional prosthetics. It includes matching instruments for the precise shaping and polishing of provisional materials such as PMMA and others.

NEW!

Product	RRP (£)
M2640	£562

£449.60!
